Election '24 has been referred to as the most consequential election of the century. We simply cannot afford to be complacent at the local, state and especially national level.

Early voting for the November 5, 2024 general election begins October 22nd and ends November 3rd.

The 2020 Election Impact

Many states passed voting laws following the 2020 election cycle. These laws focused on ensuring free and fair elections. While each proposed bill varied, lawmakers focused on several issues, including:

- Photo ID requirements
- Early voting (mail-in ballots) and when early vote counting may begin
- New restrictions on voter registration
- Restrictions on restoring voting rights for past felons

Free and fair Elections?

- “All persons born or naturalized in the United States and subject to the jurisdiction thereof, are citizens of the United States and of the State wherein they reside.” (14th Amendment)
- Discriminatory practices, historically rooted in voter suppression, persist today. These tactics deter or prevent certain groups from exercising their right to vote.
- Examples include restrictive voter ID laws, reduced polling places in minority neighborhoods, and limitations on early voting.
- But it’s already illegal for noncitizens to vote in elections in those states and at the federal level, and it rarely happens.

- The Brennan Center found just 30 suspected noncitizen votes amid 23.5 million votes in 2016, suggesting that suspected noncitizen votes accounted for 0.0001 % of votes cast.

Section 1 (2) ~~Every~~ Only a United States citizen age 18 or older who is a resident of an election district in this state is a qualified elector of that district who may vote in an election for national, state, or local office or at a statewide or local referendum.^[6]

How will
this
amendment
impact
voters?

- Changes our state Constitution
- The language changes our constitutionally protected voting rights from a guarantee for all citizens to a limitation that could be used to erode our voting rights.
- Advances this false narrative that non-U.S. citizens are somehow participating in U.S. elections in large numbers, which is totally unsupported by any evidence or facts."[\[5\]](#)
- Lawmakers in the House have attached the SAVE bill to the budget which will implement a proof of citizenship requirement.
